

**Project Title:** La Sagesse Flood Mitigation Project  
**Project Country:** Grenada  
**Responsible Organization:** Grenada Federation of Agricultural and Fisheries Organizations Inc. (GFAFO)  
**Proposed Budget (USD):** JCCCP Grant Funding: \$175,000  
 In Kind Contributions: \$31,158  
 Total Budget: \$206,158

### Project Objective

The overall objective is to increase the water storage and improve the drainage system in La Sagesse Watershed to better control and avoid incidence of flooding of the Model Farms in the area due to extreme rainfall events and to improve access to water for irrigation during the dry season.

### Selected Focal Areas

This project will incorporate the following focal area identified under Outcome 2 of J-CCCP:

- Sustainable Agriculture
- Community Based Climate Smart Resilient Infrastructure

### Targeted Stakeholder Groups

La Sagesse Model Farmers

### Project Activities

- Community-based flood risk assessment, topographical survey and river flow assessment, and feasibility study.
- Improve water availability for irrigation
- Reduce vulnerability to flooding and provide storage facilities to protect materials, equipment and agricultural produce from weather related damages.
- Community Capacity Development
- Project Management & Administration

**Outcome 2**  
Adoption and implementation of mitigation and adaptation technologies.
