Africa Regional NAP Training Workshop
Abidjan, Cote d'Ivoire
17-19 October 2017

What does the NAP-GSP do?

Programme Objective: To strengthen institutional and technical capacities for iterative development of comprehensive NAPs.

- Supports requesting countries with one-on-one technical assistance on demand to get started on the NAP process
- Sensitizes national teams on tools to support key steps of the NAP process through regional trainings
- Facilitates exchange of lessons and knowledge through South-South and North-South cooperation

Types of support provided by NAP-GSP

Supports existing efforts in relation to climate change adaptation planning, funding frameworks and prioritization of options.

It reviews sectoral and cross-sectoral priorities at the national, sub-national and local levels.

Focuses the needs of countries to initiate the different steps to identify, finance and implement the necessary adaptation measures in the medium and long term.

Analysis of data

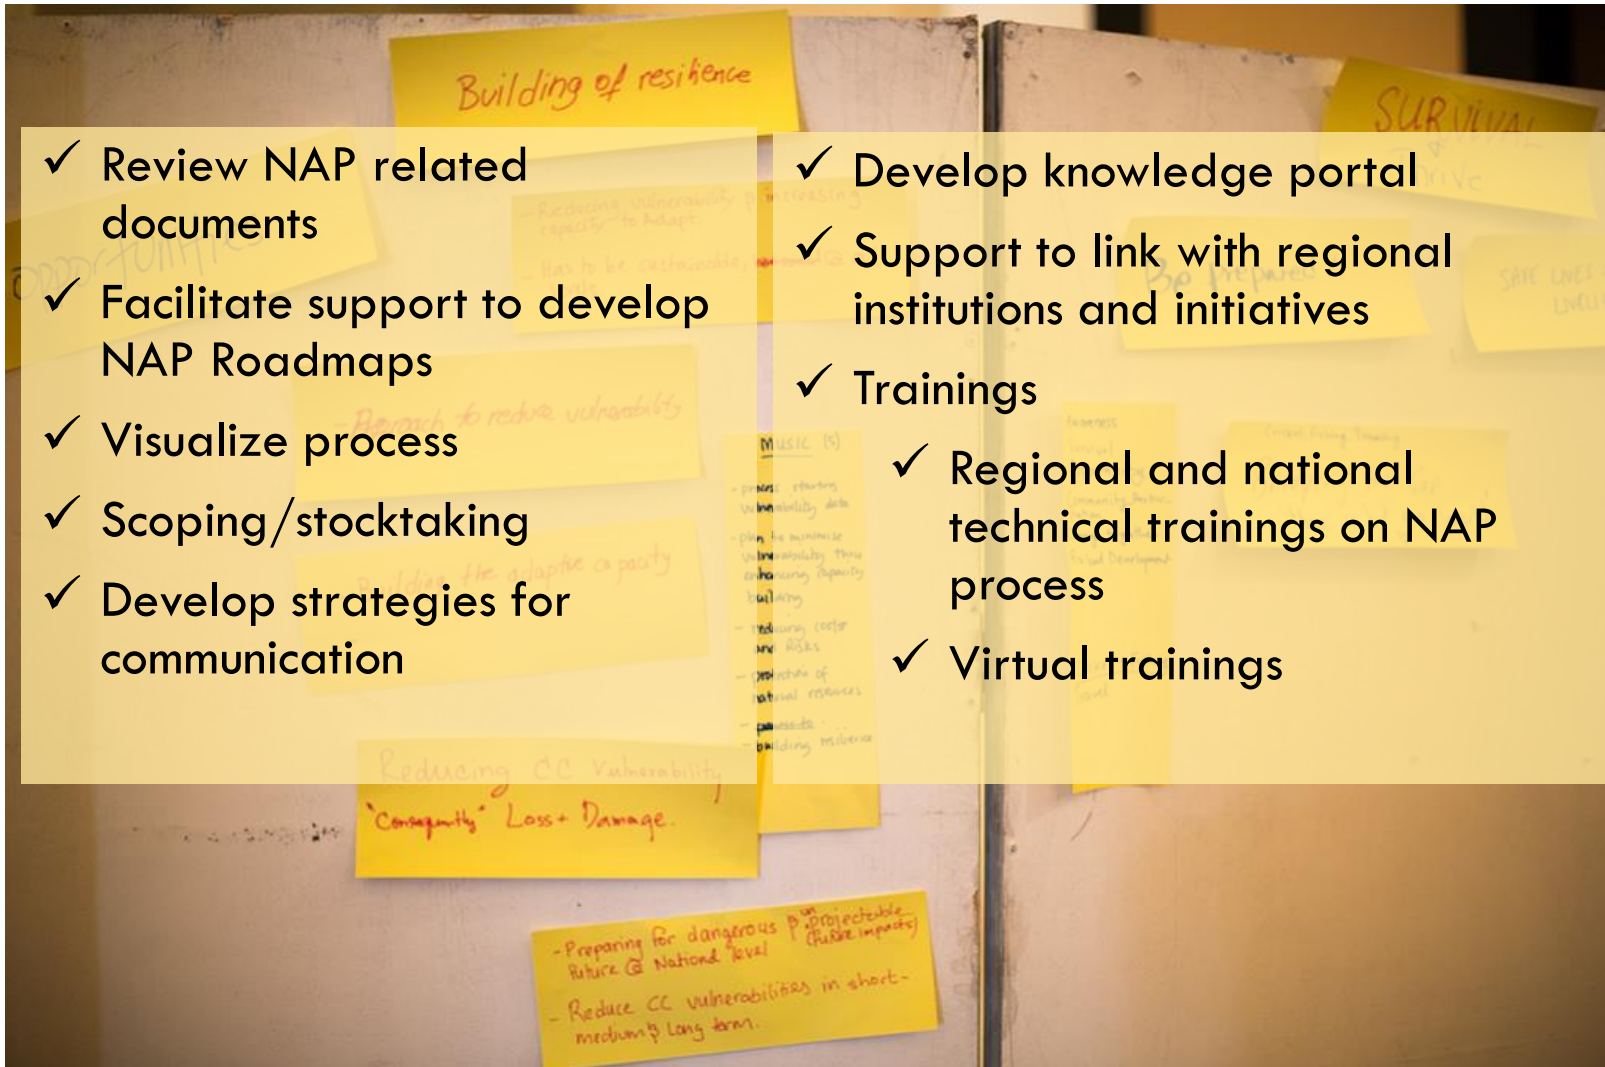

Encourages the exchange of experiences and good practices between different countries

Responds to the invitation made by UNFCCC Parties in Durban, Doha and Warsaw to UN agencies and other organizations to offer support programs
